Dear Author(s):

The table on the following page has been created to **assist** you in **comparing** and **evaluating** the selected journals at a **single glance** based on 13 **key entries**, including impact factor, frequency, and publishing charges. Selection of the most suitable journal can considerably improve the chances of acceptance of a manuscript, thus helping you publish faster. This table will help you select the most suitable journal for your manuscript (based on the *recommended submission order*, entry 2). The recommended submission order is important because academic and publishing ethics dictate that you submit your manuscript to only one journal at a time. The table will also help you assess the type of modifications (e.g., word count, number of figures, and in-text citation format) you need to make in order to improve the likelihood of acceptance in the indicated journals (entry 11). Entry 12 in the table will help you decide which of the recommended journals is most relevant to your manuscript in terms of domain, topic, scope, and type of article. Submitting to journals that publish papers on topics similar to that of your manuscript will improve the chances of acceptance. If your manuscript focuses on a relatively novel topic or describes a relatively less-known or new method, you can use entry 13 to identify journals that have published articles on topics that are similar to or closely connected with the topic of your manuscript.

Disclaimer:

Following the suggestions and recommendations listed in the journal selection reports considerably increases the chances of acceptance of your manuscript; however, Wallace cannot guarantee acceptance or publication of the manuscript by the selected journals.

	Journal name	Evaluation and Program Planning	Space and Culture	Leisure Sciences	Theory and Decision	Journal of Place Management and Development	Journal of Asian Architecture and Building Engineering
1	Journal URL	https://www.journals.elsevier.com/evaluation-and-program-planning	https://journals.sagepub.com/doi/full/10.1177/1206331215579749	https://www.tandfonline.com/toc/ulsc20/current	https://link.springer.com/journal/11238	http://emeraldgroupublishing.com/products/journals/journals.htm?id=jpmd	https://www.tandfonline.com/toc/tabe20/current
2	Recommended order of submission	1	2	3	4	5	6
3	Impact factor	1.210	0.730	1.585	0.522	Not assigned	0.310
4	Indexing	SSCI	SSCI	SSCI	SSCI	ESCI	SCIE, AHI
5	Frequency	6 issues per year	4 issues per year	6 issues per year	8 issues per year	4 issues per year	6 issues per year
6	Charges (open access)	USD 1900	USD 3000	USD 2950	Not specified	USD 2650	USD 2950
7	Subscription-based or open access	Choice of open access	Choice of open access	Choice of open access	Choice of open access	Choice of open access	Choice of open access or USD 1200 for non-members
8	Relevant keywords	Analysis hierarchy process, weighted,	Renovation, redesign, expert, opinion, weighted,	Renovation, buildings, decision, factors	Decision, criteria, evaluation, hierarchy	Renovation, redesign, decision, factors, Delphi	Renovation, redesign, factors, success, decision

		factors	factors		analysis	technique	making
9	Article length	5000–8000 words	<7000 words	<9000 words	Not specified	4000–6000 words	Not specified
10	Abstract length	<200 words	<150 words	<150 words	150–250 words	<250 words	<200 words
11	Modifications required	Shorten abstract and emphasize the planning aspect of the manuscript	Shorten abstract considerably	Shorten abstract considerably. Emphasize the significance of the study in leisure science	Shorten abstract slightly. Emphasize significance of the study in decision science	Shorten abstract slightly	Shorten abstract
12	Relevance to manuscript	Publishes papers on techniques or methods for planning in various subjects. Analytic Hierarchy Process has been used in published papers	Publishes papers on socio-spatial arenas such as the built environment, architecture, and urbanism	Publishes theoretical and methodical studies on leisure behaviour, and urban leisure delivery systems and planning for leisure environments are focus areas	Publishes papers on decision science applied to various fields	Publishes papers on place design and planning considerations, place regeneration, and location management	Publishes papers on the various aspects of building and construction. Architectural planning and design is a focus area

13	Insights	Has recently published papers on sustainable development	Urban studies, urban and human geography, architecture are some focus areas	Leisure contexts include recreation, sport, and parks	Management science, economics, and analytical philosophy are relevant focus areas	This journal is listed under ESCI because its subject area is highly specific	This is a regional journal; hence, chances of publication are relatively high
