High

2. 原因：

*(Reasons for recommendation)*

The topic of this manuscript lies within the scope of this journal. The journal has recently accepted manuscripts on renovation and redesign of buildings and built environments. The journal has recently published studies using methods such as analytical hierarchy process and Delphi technique. Furthermore, the impact factor (IF) is suitable (IF ~1). Moreover, it is listed in the Science Citation Index (SCI) or Science Citation Index Expanded (SCIE), Social Sciences Citation Index (SSCI) or Social Sciences Citation Index Expanded (SSCIE), or Emerging Source Citation Index (ESCI). This journal is suitable for the manuscript. It listed under ESCI because its subject area is highly specific and is a fast-emerging area of research.

Furthermore, please consider including the following keywords in the title and abstract. These keywords have been selected from previously published papers in the target journal:

Renovation, redesign, decision, factors, Delphi technique
